Why should you entrust Razor with your Customers'?

Razor makes the integration easy.

You focus on getting the freight from A to B safely, and Razor will do the rest.

Incorporating Razor's full array of services enables you to focus on your core strengths while allowing Razor to fill in all of the other functional service gaps in order to appear seamless to your customers.

Razor becomes an extension of your team and will produce increased efficiency and customer satisfaction alongside your team.

Claims will be mitigated before filed to aid in quick turnaround and fair settlements. Razor can also lessen the carriers liability leading to even less out of pocket.

Time consuming customer service issues will be handled by Razor's team. Ensuring your team focuses only on the final solution.

Razor does all of this and MORE.
